Subject: Steve Way's e-mail

Hey Enforcement Brutes,

Steve Way is trying to put to his "file" for the Red and Bonita/Gold King Mine Site, which I understand is under a fairly short deadline. Steve says he just simply can't get to all his e-mail to get it put together. I've asked Dave Christenson to send me someone who can go capture this for him. It occurred to me that I should probably coordinate with you.
